Welcome!

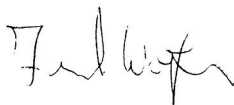

Whether you are new to our questionnaire, returning after some time away, or are one of our faithful experienced participants, we welcome you. If you have been helping us for some time we say thank you. We encourage you to read through the instructions below. They will help to make the time you spend filling out the questionnaire worthwhile for both you and us. You will need to complete EACH page of the survey so we can update existing information as well as get your new or current information.

Please note that most questions pertain to the time frame of July 1, 2008 to December 31, 2008, unless otherwise noted. Most of the questions you may have seen before. A few of the questions may seem to be very much alike, but they are all worded and scored differently. Because of this we do want you to answer each question, even if it seems similar to a previous question.

Each of you makes a valued contribution to this work. Sometimes people think that their disease is too mild, or too severe, or they aren't taking medication, or they have additional conditions not related to arthritis, so we might not want them to continue in the study. Nothing could be further from the truth. We need the experience of each of you to further refine and develop this data bank, which continues to be the largest and most comprehensive in the world. We appreciate each and every one of you!

As always, if you need help with your questionnaire, or have a question, call us at 1-800-323-5871 and then follow the instructions. You may also fill out the questionnaire online by going to www.arthritis-research.org.

Best wishes,

Fred Wolfe, MD

For most of these conditions we need to ask the same questions, so it doesn't make sense for us to create separate questionnaires for each disorder.
